Fresh and green:

Having tried a few products that can be added to vacuum bags to freshen the house, we like the "green" side of Fresh Wave Vacuum Pearls. A blend of soya, purified water and natural extracts of aniseed, clove, cedar wood, lime and pine needle captures and neutralizes odor molecules.

The nontoxic, nonhazardous, recyclable line of products - no aerosol and no volatile organic compounds - comes in a spray, soy candle, continuous-release gels, sachet packs, carpet shake and an all-purpose cleaning additive for use in laundry and carpet steam cleaners.

\$4.50-\$49.95 and up at www.fresh-wave.com, Sur La Table, the Container Store, select Whole Foods Markets, and Ace, True Value and Do It Best hardware stores.
