

## **OMI INDUSTRIES EXPANDING MARKETS RESULTS IN DEVELOPMENT OF NEW COMMERCIAL DIVISION**

Barrington, Ill. (July 31, 2007) – OMI Industries [OMI], an international manufacturer of safe odor neutralizing products, is pleased to announce a new commercial division.

Since 1989, OMI has provided safe, natural odor management solutions for industrial use worldwide with its proprietary Ecosorb™ formula. In 2004 OMI formed a consumer division to promote its Fresh Wave product lines for household and pet odor neutralization.

“This new division fills a void we have had,” states Phil Coffey, OMI president, “between our industrial and consumer businesses.”

Ecosorb™ iAQ which stands for indoor air quality is what OMI Industries’ commercial product line is called. The products will be used by a variety of value added resellers ranging from pest control purveyors to commercial facilities managers.

*OMI Industries is a privately-held corporation founded in 1989 comprised of industrial, commercial, and consumer divisions. Its international corporate headquarters are in the greater Chicagoland-area at 18-6 E. Dundee Road, Suite 101 in Barrington, Ill., 60010. OMI has manufacturing, warehousing and a research and development facility in South Houston, Texas; Rising Sun, Indiana and Ventura, California, respectively.*
