## Home Base

### Fresh Wave scents

Potpourris and scented candles are usually good ways to keep your home smelling good, as long as the ingredients in them eliminate bad odors rather than mask them.

Fresh Wave products offer green solutions to everyday household and pet odors. Made with a blend of soya, purified water and natural extracts including aniseed, clove, cedar wood, lime and pine needle, the products are activated by airflow and attract, capture and neutralize odor molecules.

Products are nontoxic, nonhazardous, nonaerosol and recyclable and contain no harmful volatile organic compounds.

The line includes candles, sprays, crystal gels, carpet shake and an all-purpose laundry additive, and it is safe for humans, animals and the environment.

Fresh Wave products are available online at [fresh-wave.com](http://fresh-wave.com), Ace Hardware stores, select Whole Foods stores and more than 3,000 independent specialty retailers across the country.
